Mr. Frank Laird
Environmental Engineer
The Anaconda Company
P. O. Box 1932
Butte, Montana 59701

Dear Frank:

I understand that you have become associated with the smoke problem at the Rod Plant in Columbia Falls. Basically, I assume that they want us to lower the density of the submicron particulate and are not concerned with fumes.

For your information, I am enclosing a report on a visit to the Reynolds plant at Longview, Washington. They have a similar problem.

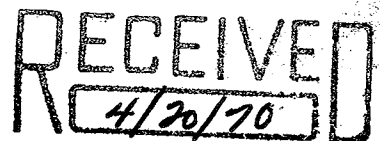

If we can be of any help, please advise.

Very truly,

F. G. Doenges
Chief Engineer
